PROFESSIONAL SUMMARY

Results-driven Frontend Developer specializing in React.js and modern JavaScript, with a track record of delivering high-performance, scalable, and production-ready web applications. Experienced in building reusable component libraries, optimizing application performance, and managing complex state using Redux. Adept at transforming business requirements into intuitive, high-impact user experiences. Recognized for ownership, problem-solving, and delivering clean, efficient code in fast-paced environments.

TECHNICAL SKILLS

- Frontend: React.js, JavaScript (ES6+), HTML5, CSS3
- State Management: Redux
- UI Libraries: Material UI
- Web Concepts: REST API Integration, Responsive Web Design, Component-Based Architecture
- Tools & Version Control: Git, GitHub, VS Code

EDUCATION

- 2023 – 2026 : Bachelors of Computer Application from ITM SLS Baroda University, Lilora - Vadodara with 9.03 CGPA.
- 2022 – 2023 : 12th from Geeta Jyoti Senior Secondary School , Rewa with 8.5 CGPA.
- 2020 – 2021 : 10th from Geeta Jyoti Senior Secondary School , Rewa with 8.2 CGPA.

PROFESSIONAL EXPERIENCE

Frontend Developer Intern

Netlink Software Private Limited | July 2025 – Present

- Engineered 8+ reusable and modular React components to enhance maintainability and scalability of enterprise applications.
- A portfolio website that shows your projects and achievements, highlighting your skills and creativity in a simple and clear way
- Integrated RESTful APIs with efficient asynchronous handling to ensure seamless data flow across modules.

- Improved UI responsiveness and cross-browser compatibility following modern frontend performance practices.
- Collaborated with backend teams to design clean data contracts and improve overall system efficiency.
- Followed Git-based branching strategies to maintain production stability and feature isolation

PROJECTS

- Website Portfolio (<https://github.com/Roshan1812-Singh/Web-Portfolio>)
(A personal website designed to highlight technical skills, projects, and professional experience in a structured and visually appealing manner.)
- Portfolio Website (<https://github.com/Roshan1812-Singh/Personal-Portfolio>)
(A portfolio website that presents a curated collection of projects and achievements, demonstrating practical expertise and creativity.)
- Crypto Currency Portfolio (<https://github.com/Roshan1812-Singh/Crypto-Portfolio>)
(A cryptocurrency management portfolio is a digital platform that allows users to track, manage, and optimize their crypto investments in one place.)
